

A - Using the integrated Mac Mini and OpenBoard system

1. Plug the power cable.

2. Turn on the Mac inside the cabinet.

3. Turn on the projector.

OpenBoard will start automatically.

B - Using your own laptop

Connect the HDMI cable and the black USB cable labeled "YOUR COMPUTER" to your laptop.

Once the tablet screen is on, press the small touch button in the top-right corner of the tablet to select the HDMI input (1/2).

For digital annotation and whiteboard features, we recommend using the free software OpenBoard.

You can follow this download link.

C - Troubleshooting

No image displayed on the tablet?
Press the button at the top of the tablet.

No image displayed on the projector?
Make sure the HDMI cable labeled "PROJECTOR" is connected and that the projector is plugged into a power outlet.
